

Title: Making and designing a toy drone through multidisciplinary collaborative work

Sisak - Drone Workshop

Project number: 2015-1-ES01-KA202-015925

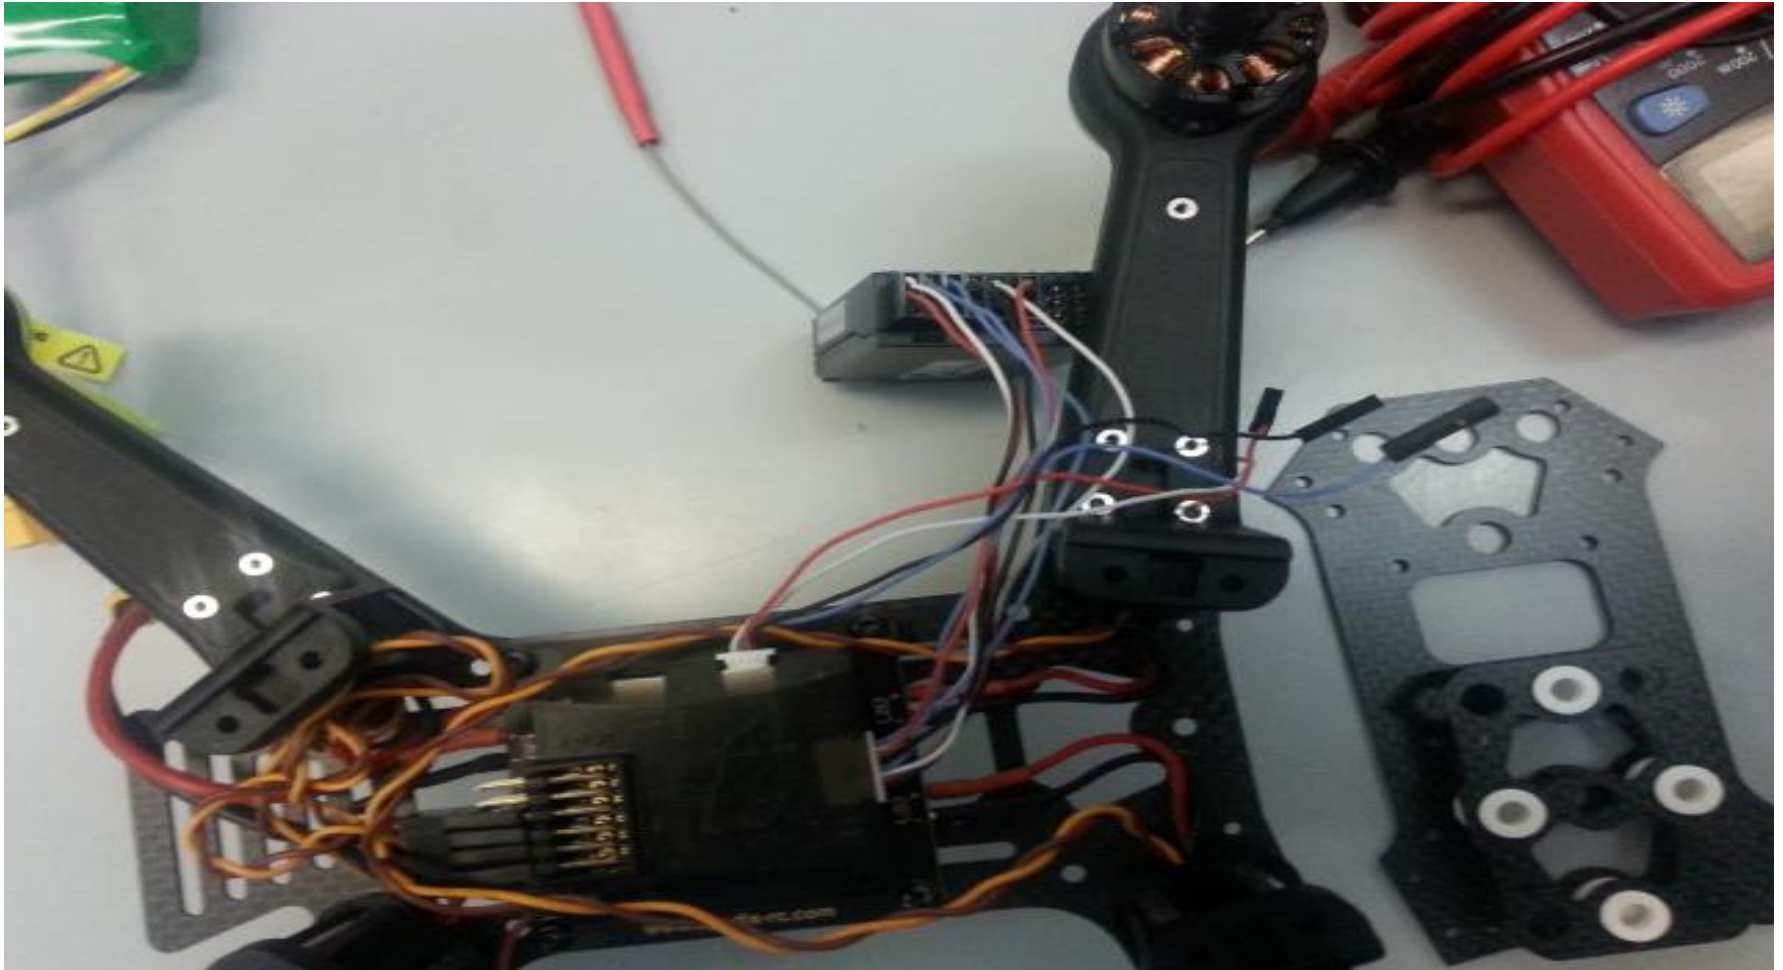

Erasmus+

- 02.05.2016. We received drone parts and organize tehcnical workshop.
- Students starts to read manual and build drone.

First they build the frame

Add electronics

Make setup

The problem is in receiver. We could not connect with it.
